GP Liaison

We are delighted to organise consultant speakers to present GP educational training at your practice, TIPs or CCG meetings at a time to suit you.

If there is a specific topic not listed please do let us know as this can usually be arranged for you.

We will provide lunch and equipment if required.

Please contact:

Julie.deadfield@ramsayhealth.co.uk | 07387 262 516

GP and Consultant Testimonials

“A number of Consultants from numerous specialities from The Berkshire Independent Hospital have presented at our practice meetings over the past year. The talks have been extremely informative giving a good update and the consultants provided useful hand-outs.

The GPs as well as the nurses have found the opportunity to meet informally in smaller groups beneficial and we have been able to discuss individual patients directly with the Consultants.

It is very convenient to have these educational talks during our lunchtime practice meetings at our surgery with no disruption to our working day.”

Dr Christopher Keast
The Boathouse Surgery, Pangbourne

“I have been presenting at GP Practice, TIPs and CCG educational meetings for some years now. With so many updates and advances in medicine, bringing this information to the GP community is very important.

These meetings allow me the opportunity to put names to faces and give GP's and practice staff the opportunity to ask me questions and advice first hand.

Feedback has been excellent with regards content and quality of training in small informative groups over lunch, which is extremely convenient for GP's.”

Dr Jeremy McNally
Consultant Rheumatologist
